

Q1:

- 1:**When I type a keyword to search for shoes, will it suggest full keywords?
- 2:**If I search for a particular brand of shoes, will only that brand of shoes be displayed?
- 3:**Can I search by shoe color and size?
- 4:**If you type in any brand name, will it suggest other brands under that brand?
- 5:**Does this application have multiple language options? If so, can I search in any language?
- 6:**I searched for shoes in any category, if they are not available, will it show me "Not Available"?
- 7:**Can I search by price range?
- 8:**Can I search for discounts or offers?
- 9:**How many words can I search with?
- 10:**If I enter the wrong keyword, will it show an error?

Q2:

Test Case ID	Test scenario	Test steps	Expected result	Actual result	Status (pass/fail)
1	Typing a keyword will suggest similar products	1.open search page 2.write bata 3.suggest bata	Should be suggest bata		
2	Search particular brand name will only display that brand of shoes	1.open search page 2.write bata 3.click the search button	Should be display particular brand of shoes		
3	Search by shoe color and size will show the products.	1.open search page 2.write blue 3.click the search	Should be show blue color shoes		

		button			
4	search any brand name, will it suggest other brands under that brand	1.open search page 2. write bata 3.click the search button	Should be suggest under that brand of another brands		
5	This application is multiple language option will we can search any language	1.open search page 2.write বাটা 3.click the search button	Should be show the brand of বাটা either no result		
6	Search any category shoes if products is not available ,it will show me not available	1.open search panel 2.write sneakers 3.click the search button	Should be show the shoes of sneakers
